Tools and Supplies Required

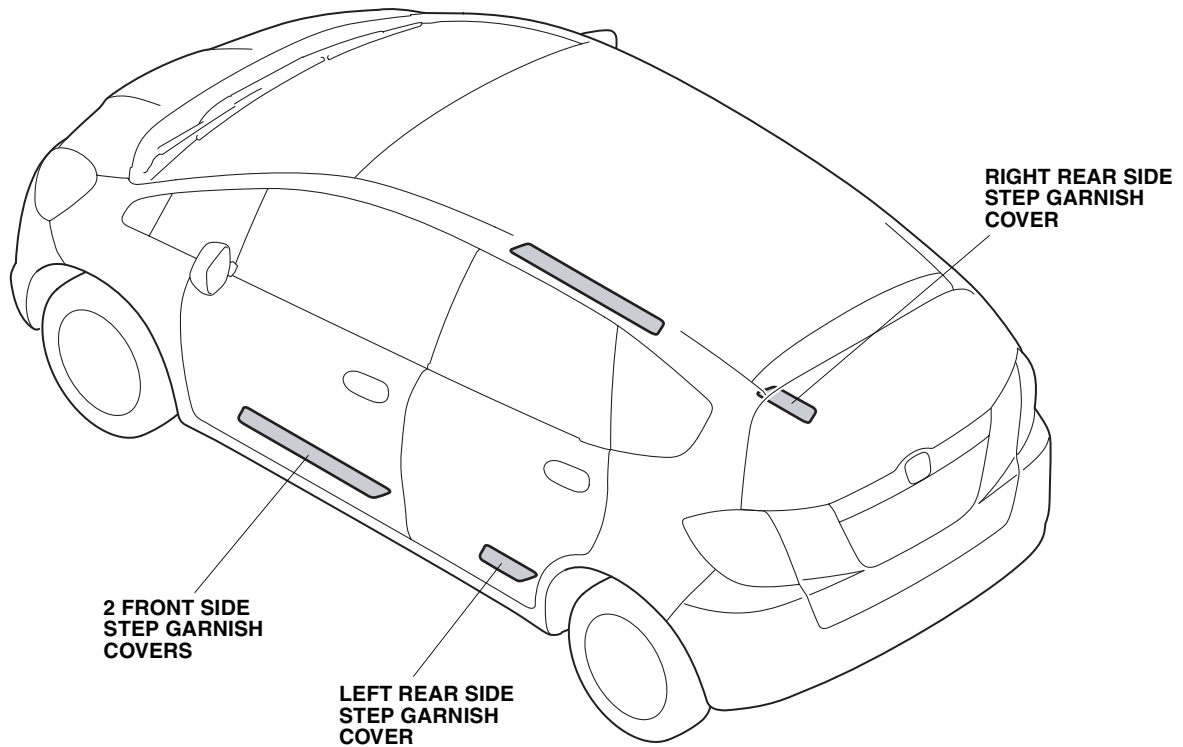

- Measure
- Masking tape

Before You Begin

Customer Information

- After installing, hold the side step garnish covers firmly against the body with the palm of your hands.
- These installation instructions show the left side step garnish covers being installed. The same procedure applies to installing the right side step garnish covers.
- This side step garnish covers kit should be installed only if the ambient air temperature is 15°C (60°F) or above. Heat the side step garnish covers and bonding surfaces with a hair dryer set on LOW if the ambient air temperatures is below 15°C (60°F).
- To allow the adhesive to cure, do not wash the vehicle for 24 hours.

INSTALLATION

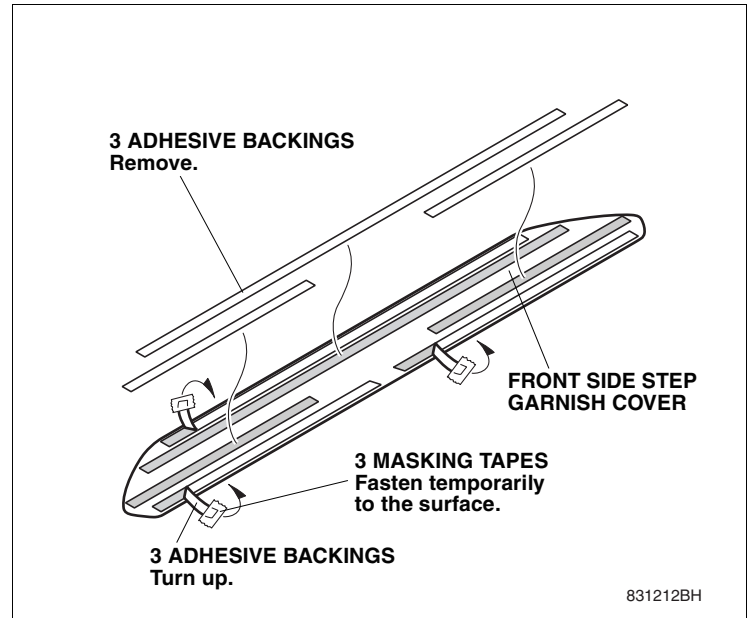

Installing the Front Side Step Garnish Cover

1. Open the left front door.
2. Check the front side step garnish cover installation position. Measure the left front side step and mark the measurement with masking tape.

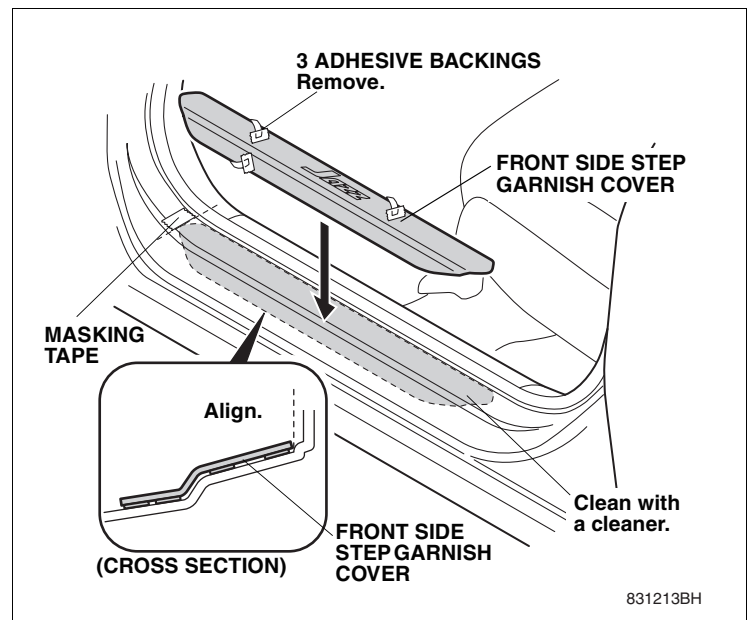

831211BH

3. Turn up the ends of the three adhesive backings of the front side step garnish cover and secure them temporarily to the surface of the front side step garnish cover with three masking tapes.
4. Remove the remaining adhesive backings from the backside of the front side step garnish cover.

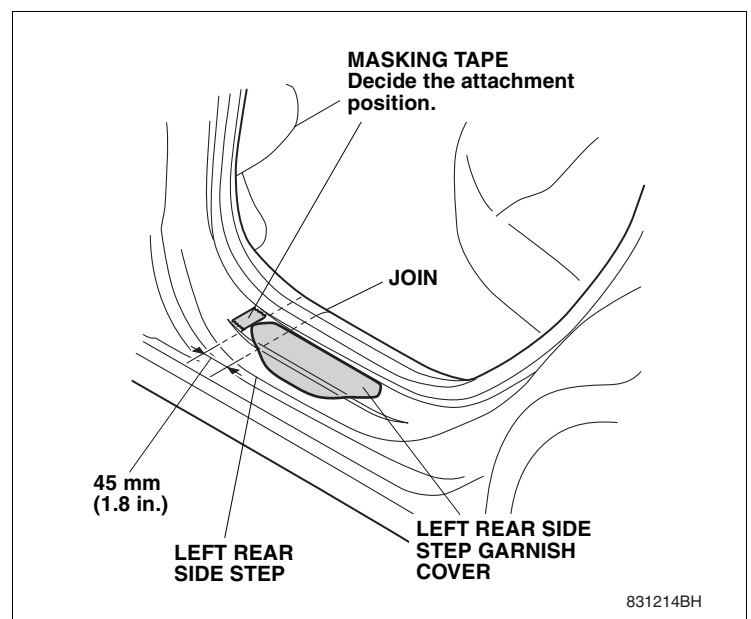

5. Clean the surface where the front side step garnish cover will be installed using a cleaner.
6. Align the end of the front side step garnish cover with the masking tape and install the front side step garnish cover.
7. Remove the three adhesive backings attached to the front side step garnish cover.
 - Apply pressure the front side step garnish cover with palm of your hands for 30 seconds especially thoroughly to the end parts.
8. Remove the masking tape.
9. Perform the same work also on the opposite side.

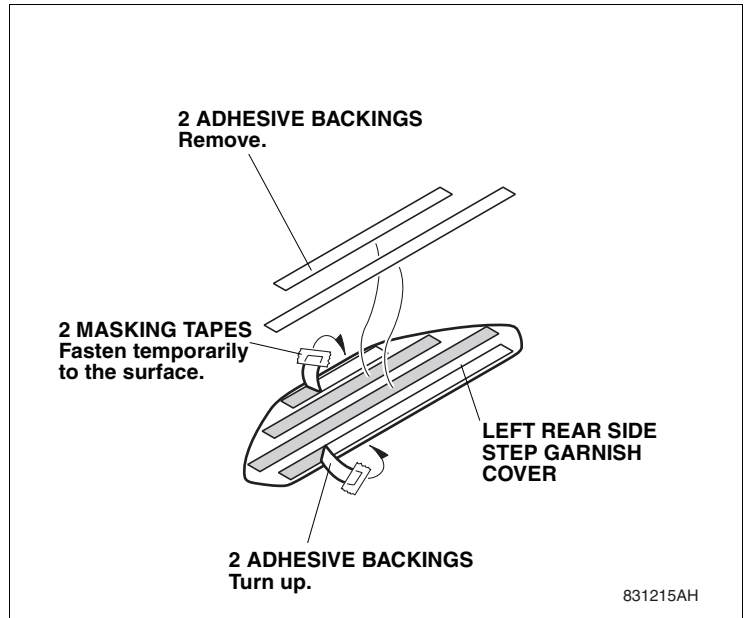

Installing the Left Rear Side Step Garnish Cover

10. Open the left rear door.
11. Check the left rear side step garnish cover installation position. Measure the left rear side step and mark the measurement with masking tape.

12. Turn up the ends of the two adhesive backings of the left rear side step garnish cover and secure them temporarily to the surface of the left rear side step garnish cover with the two masking tapes.
13. Remove the remaining adhesive backings from the backside of the left rear side step garnish cover.

14. Clean the surface where the left rear side step garnish cover will be installed using a cleaner.
15. Align the end of the left rear side step garnish cover with the masking tape and install the left rear side step garnish cover.
16. Remove the two adhesive backings attached to the left rear side step garnish cover.
 - Apply pressure the left rear side step garnish cover with palm of your hands for 30 seconds especially thoroughly to the end parts.
17. Remove the masking tape.
18. Perform the same work also on the opposite side.
